COP21 Satellite Meeting

2015 China-Europa Forum

《Facing Climate Change: Rethinking Our Global Development Model, Act II》

1 December 2015 | Paris

On 1st December 2015, within the framework of the UN Climate Summit (COP21) in Paris, the China-Europa Forum (CEF) will jointly organise with Vanke Group, SEE Conservation, Entreprises pour l'environnement (EpE) and the European Committee of the Regions, a satellite meeting named "Facing Climate Change: Rethinking Our Global Development Model, Act II". This follows on from the conference "Climate Change: Rethinking Our Model of Global Development and Building a Citizens' Ethic, Act I" organised by the CEF from 2-5 December 2014. This brought together more than 300 participants from Chinese and European civilian societies, including NGOs, enterprises, research centres, local authorities and media. There were two plenary sessions and three roundtables in Paris as well as 12 thematic workshops in Paris, Brussels, Geneva, Lyons, Marseilles, Lille and Rouen. One of the important outcomes of the 2014 climate change conference in Paris is the Common Text - the result of a year-long process of joint elaboration which will be officially presented in Paris to the UN Climate Summit (COP21) in December 2015.

Objectives

1. That Chinese and European societies join together in order to contribute to the success of the 2015 UN Conference on Climate Change (COP21) in Paris ;
2. To promote the establishment of a fresh China-Europe dialogue mechanism in order to enter a new era in the fight against climate change, to enhance mutual exchanges and to find a new governance model ;
3. To build the China-Europe green development platform in order to encourage a circular economy based on renewable energy and green construction, to promote local initiatives and international experience sharing, to address jointly global environmental challenges ;
4. To promote EU-China business co-operation in the field of facing climate change, to reduce energy consumption and the carbon footprint in production and lifestyle activities with the aim of achieving the objective of a transition to a sustainable society.
