

100 Climate-Neutral and Smart Cities by 2030

Introduction and overview of NetZeroCities
25 November 2021

This project has received funding from the H2020 Research and Innovation Programme under grant agreement n°101036519.

NetZeroCities

- ↳ Consortium
- ↳ Methodological approach
- ↳ Key activities

NetZeroCities key activities

Mission platform – organise and make accessible to all cities available tools, resources, expertise, capabilities

- Design phase now, phased-in operation during 2022, fully operational Sept 2022
- By 2025 determine best service model and ongoing financial sustainability of the platform

Climate-neutral city contracts – multi-level government collaboration tool and instrument for building agency and resources

- 25-30 cities to be selected from the 100 Mission cities

“Large-scale pilots” – up to 30 cities to receive substantial funding (€0.5 to €1.5 M) for innovation-focused projects

- Climate neutrality ambition and Mission alignment
- Twinning programme to engage and help more cities
- City Guides to help cities through the process

Impact framework for climate-neutrality at city scale

Learning approach with peer-to-peer sharing to enhance the practice of city climate action for climate neutrality

Policy advocacy and communications
