

ENVE Commission statement

The ENVE Commission notes with concern the cancellation of the Climate Action Plan by President Donald Trump Administration and recognises that a lack of action on climate change by a large Country like the United States could negate the positive impact of much of the climate change mitigation work that EU Local and Regional Authorities are engaged in.

The CoR has a Memorandum of Understanding with the US Conference of Mayors.

The CoR ENVE Commission requests that the CoR contacts the US Conference of Mayors to determine their reaction to the Trump administration's attitude and actions on Climate Change policy with the intention of making a strong statement in support of positive local and regional action on climate change in the United States as well as in the EU.
