FOR A STRONG EU COHESION POLICY

2.0 

The European Parliament, on the 23 June 2021, gave its final green light to the new cohesion policy legislative package, which will enter into force on 1 July.

We can now celebrate what we achieved so far, together:

Secure a strong cohesion policy without cuts to the overall financial allocations 2021-27

Keep the regional and local communities at the heart of the new cohesion policy governance

Increased flexibility to react to new needs caused by the pandemic
