

Conference on the future of Europe on the agricultural sector

The agricultural sector faces many challenges — climate warming, environmental protection requirements, changing socio-economic dynamics in rural areas and ensuring food security. Food production and proper land management are key areas that can contribute to achieving the ambitious objectives of the European Green Deal and achieving Europe's climate neutrality until 2050. Farmers are key actors in ensuring its implementation on the ground. In this context, adequate EU budget support is needed through a reformed, more flexible Common Agricultural Policy and funding for more sustainable and intelligent farming practices. In this context, support for precision farming and the digitalisation of the sector will be key enablers for the implementation of the European Green Deal in order to improve the optimisation of agricultural production, i.e. produce more with less input.

Date: 20 April 2022 Time: 10:00-12:30 Place: online
(Registration for the event: 09:50)

10:00-10:10

Ceremonial opening

*Adam Struzik
Marshal of the Mazowieckie Voivodeship*

*Gustav Marek Brzezina
Marshal of the Warmińsko-Mazurskie Voivodeship*

10:10-10:40

Panel I: Challenges of the new Common Agricultural Policy 2021-2027

- **A new, reformed Common Agricultural Policy.**
How the CAP reform will affect European farmers and consumers, taking into account the objectives of the European Green Deal.

Maciej Golubiewski, Head of the Cabinet of the Commissioner for Agriculture, DG AGRI, European Commission

- **Strategic Plan for the Common Agricultural Policy 2023-2027.**
Presentation of the new proposals contained in the draft following consultations and arrangements conducted by the Ministry of Agriculture and Rural Development.

Joanna Gierulska, Director of the Common Agricultural Policy Department, Ministry of Agriculture and Rural Development

- **Implementing new Common Agricultural Policy solutions — a threat or an opportunity for farmers and the single market?**

Jarosław Kalinowski, Member of the European Parliament, Committee on Agriculture and Rural Development (AGRI)

10:40-11:10

Panel II: Economics and Ecology

- **Sustainable Food Production — Strategy "From Field to the table" and the Biodiversity Strategy for 2030.**
The impact they will have on transforming food systems and preventing biodiversity loss.

Paweł Szabelak, First Secretary, Department of Agriculture, Permanent Representation of the Republic of Poland in Brussels

- **Assessment of the impact potential of "The From Field to the table" strategy and the Biodiversity Strategy for 2030 for the agricultural sector.**
Will sustainable agriculture take place at the expense of a decline in production and threaten Europe's food security? What are the benefits of more sustainable production for the agricultural sector?

Monika Przeworska, Director of the Institute of Agricultural Economy

- **Agriculture and the European Union's climate policy.**
How to produce healthier food, guarantee its supply and ensure a fair income for farmers? Impact assessment of the introduction of the EU strategy.

Adam Jarubas, Member of the European Parliament, Committee on the Environment, Public Health and Food Safety (ENVI)

11:10-11:40

Panel III: Agriculture 4.0 — agriculture of the future

- **Precision agriculture — the future of the European agricultural sector?** *Does precision farming have the potential to meet the challenges facing European farmers through the use of innovative tools and digitalisation?*

Dr. Eng. Jacek Skudlarski, Chair of Production Organisation and Engineering, SGGW

- **Regenerative agriculture — what is it and how the carbon credit scheme works.** *How the agricultural sector can benefit from sustainable coal cycles by promising a new source of income for farmers.*

Mateusz Ciasnocha, President of European Carbon Farmers, farmer

- **Development and implementation of new e-services and applications for the agricultural sector using satellite data - examples of good practice.**

M.S. Eng. Mariusz Kacprzak, Head of the Remote Sensing Department, Space Technology Centre, Łukasiewicz Research Network

Moderator: Maciej Zakrocki, journalist
