

## Your vision – your strategy

Eligible candidates are invited to draft an **EER strategy**, in which they commit themselves to develop their entrepreneurial potential through sustainable and credible actions. Against the backdrop of implementing the **principles of the main EU policies on entrepreneurship and SMEs**, regions are asked to **set measurable targets** within a long-term horizon. Consultation of and cooperation with a broad range of stakeholders is an essential precondition to develop a lasting and beneficial overall entrepreneurial culture within a region, which should potentially create positive spill-over effects across the entire EU.

Applicants must demonstrate a real **political commitment to support SMEs and strengthen entrepreneurship** through a strategy officially endorsed by the regional assembly, the government of the region or other authorised political bodies.

## How to apply?

Application forms and detailed information on the assessment criteria are available on the EER web page at [cor.europa.eu/eer.go](https://cor.europa.eu/eer.go). The application must be supported by a written declaration of political commitment.

## EER Award winning regions

### What is the EER?

The **European Entrepreneurial Region (EER) award** is an initiative of the European Committee of the Regions (CoR) that identifies and rewards EU regions and cities with outstanding, future-oriented **entrepreneurial strategies**. The territories with the most visible, forward-looking and promising political vision are granted the EER label for a specific year.

### Objectives

The EER label helps regions and cities support SMEs and entrepreneurship by implementing the new **EU SME and Industrial Strategy** at local and regional level, building on the key policy priorities of the EU strategic agenda 2019-2024.

The EER label is an opportunity for local and regional actors to demonstrate how **SMEs and entrepreneurs can take advantage of the green and digital transitions**, thus strengthening the competitiveness and long-term resilience of their local economies.,

The EER scheme follows a **multi-level governance** approach by promoting the development of entrepreneurial ecosystems, in which both regional and local actors are represented.

### Implementation

To date, thirty six EU regions and cities have been awarded the EER label. The implementation of their EER action plans is monitored by the **EER jury**, chaired by the CoR President. The EER label stimulates the development of **joint initiatives between EER regions** during and beyond their EER year.

### EER 2024 call for applications

The lead theme of the EER 2024 call for applications is **Cities and regions on a path to a resilient, sustainable and digital growth**. As part of the new call for applications, up to three regions will be awarded the EER label for the year 2024.

#### Schedule:

- 29 November 2022: Launch of the call for applications
- 29 March 2023: Deadline for applications
- June/July 2023: EER award ceremony

### Eligibility – who can apply?

The EER label is open to any EU territory—below the level of the Member State—that is endowed with competences at a political level and able to implement an overall entrepreneurial vision. Each applicant’s specific challenges and economic starting point are taken into account, in order to ensure that the label remains open to all territories committed to developing their entrepreneurial potential. Within the EER scheme, “regions” are defined in the broadest sense, including communities, autonomous communities, departments, Länder, provinces, counties, metropolitan areas, **cities**, as well as **cross-border territories** with legal personality.

2011
Land Brandenburg – Germany Kerry County – Ireland Murcia Region – Spain
