

Green Deal in my city

Platform: ZOOM

On 25 May, the European Committee of the Regions (CoR), in cooperation with the Bratislava – Petržalka Youth Parliament in Slovakia, organizes a digital info session on the Green Deal going local.

Mr [Vincent Chauvet](#) (FR/Renew Europe), Mayor of Autun and CoR Rapporteur of the Opinion "[Stepping up Europe's 2030 climate ambition towards COP26](#)", will engage in a debate with the members of the youth parliament on how citizens and local and regional authorities can accelerate the implementation of the Green Deal at local and regional level.

The session will present the key priorities of the European Green Deal and the work of the European Committee of the Regions on the topic. Practical examples will be presented on how youth parliaments can contribute to implement the climate action at local level. Best practices and platforms for sharing knowledge, as the [CoR Interactive Map on Green Deal stories](#), will be highlighted to provide the members of the youth parliament with additional tools to actively contribute to raise awareness and develop meaningful projects in their community.

The session is organised in close cooperation with the Bratislava–Petržalka municipality, represented by Miroslav Behúl, city councillor and participant of the [CoR Young Elected Politicians \(YEPs\) Programme](#).
