The #Leader strategy
French Regions Leaders for economic development on their territory

→ December 2016: adoption of the #LEADER global strategy for innovation, growth and employment 2017-2021

→ 4 main orientations:

- Investing in the attractiveness
- Boosting the competitiveness of PR companies
- Developing an entrepreneurial and innovation spirit
- Working collectively
€ 130m budget for economic development, half of it directly going to businesses

Each year, the Region supports around:

- 3,000 SMEs
- including 1,000 start-ups
- 10,000 creators
Financial support to startups

Entrepreneur #Leader

New entrepreneurship program aiming to offer a unique “path” for all business creators in Paris Region through 3 distinct phases:

1) “Build my project”: support to
   - finalize your economic study, formalize your business plan,
   - choose your legal, fiscal and social status
   - test your activity and start as an entrepreneur in an incubator
   - formalize and present your project to potential partners/financers

   **How? Up to 12 hours of support by experts**

2) “Finance my project”:
   - be informed about the funding offer, eligibility of your project
   - structure your project through an analysis of your business plan (financial, human, marketing, accounting, legal, etc.)
   - mobilize funding (microcredit, bank guarantee or honorary loan, etc.)

   **How? Up to €50000 (€120000 for technological innovation projects)**
Entrepreneur #Leader (2)

3) “Develop my business” (during the first 3 years)
    build an efficient management for your company
    implement its commercial action
    develop your network and business opportunities
    make relevant recruitments
    secure the development of your activity
    Develop your entrepreneurial skills

How? regular meetings and a personalized assessment at the end of the journey, workshops to share experience with peers, privileged access to partners' networks and solutions

https://www.laccelerateuridf.co/
Access to public procurement for startups
Small Business Act

A regional Small Business Act (March 2017) to facilitate SMEs’ access to public markets relying on:

- a better information to SMEs
- simplified procedures
- the grant of advances of up to 50% of the global contract in order to reduce cash issues
- the shortening of payment delays
- a fight against illegal work
- a commitment to reserve 2% of the regional procurement for innovative solutions
Tuesdays of the Smart Region

Monthly meetings between startups and public buyers (local governments, universities, hospitals, etc.) to sensibilize buyers to new solutions and encourage innovative procurement.

Past « Tuesdays of the Smart Region »:
- April 2018: Education
- July 2018: Tourism
- September 2018: Civic tech
- October 2018: Security
- November 2018: Mobilities
- December 2018: Housing
The EER label for us:

- The recognition of what we are trying to implement/achieve to boost regional entrepreneurs and economy,
- A real booster to develop and implement economic development schemes,
- One year of increased visibility for our actions in this field and for the Region more generally,
- The network effect: access to contacts in other European regions,
- Reporting to EER team = an extra booster to monitor implementation and impact!
Tips for future applicants?

- demonstrate the label added value: show how it’ll help you boost your actions...
- and how you’ll manage to promote the Label!
- show the existence of a strong political commitment,
- show how your actions will echo EU political priorities and impact locally
