

## EU ACTION PLAN 'Towards Zero Pollution for Air, Water and Soil'

Pathway to a Healthy Planet for All

11/06/2021

#### We are encountering major ecological crises

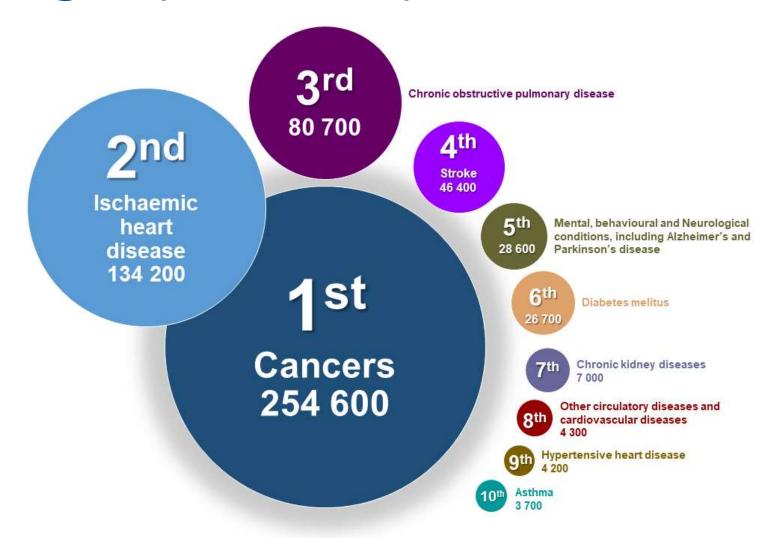

#### Urgency to act on pollution

## The European Green Deal zero pollution actions

Increasing the EU's Climate ambition for 2030 and 2050

Transforming the EU's economy for a sustainable future

Supplying clean, affordable and secure energy

obilising industry for a clean and circular economy

Juilding and renovating in an energy/resource efficient way

The European Green Deal

And leave No one behind Preserving and restoring ecosystems and biodiversity

Mobilising research and fostering innovation

From 'Farm to Fork': a fair, healthy and environmentally friendly food system

Accelerating the shift to sustainable and smart mobility

Financing the transition

Leave no one behind (Just Transition)

The EU as a global leader

A European Climate Pact

## Many Green Deal actions already contribute to the Zero Pollution ambition

- Circular Economy
   (e.g. microplastics)
- **Biodiversity and Farm to Fork** (e.g. nutrients, pestides)
- **CAP** (e.g. pesticides and fertilisers)
- Climate & Energy initiatives including Adaptation
- Cancer Plan (e.g. air pollution)
- Mobility Strategy
- Renovation Wave & Bauhaus
- Industrial Strategy
- Pharmaceuticals Strategy
- Trade Policy Review & Mulitlateralism
- etc.

## The European Green Deal zero pollution actions

Increasing the EU's Climate ambition for 2030 and 2050

Transforming the EU's economy for a sustainable future

A zero pollution ambition for a toxic-free environment

Supplying clean, affordable and secure energy

obilising industry for a clean and circular economy

Juilding and renovating in an energy/resource efficient way

The European Green Deal

And leave No one behind Preserving and restoring ecosystems and biodiversity

Mobilising research and fostering innovation

From 'Farm to Fork': a fair, healthy and environmentally friendly food system

Accelerating the shift to sustainable and smart mobility

Financing the transition

Leave no one behind (Just Transition)

The EU as a global leader

A European Climate Pact Chemicals Strategy for Sustainability

Zero Pollution Action Plan for Air, Water & Soil

## Many Green Deal actions already contribute to the Zero Pollution ambition

- · Circula · Ec · vomy (e.g. r ıcror
- Biod ve. Joined arm to up estides)
- CAP (e.) estilisers)

ir Holistic lar

- Cancer Plan (eg all pollution
- Mobilly S
   Integrated
- Renovation
- Industrial
- Pharmaceutical egy
- Trade Policy Review & Mulitlateralism

### Preparation

2020

1-29 October

Roadmap published

2021

**October-February** 

Outreach / stakeholder consultation

12 May 2021

Adoption of Zero Pollution Action Plan

14 October

Chemicals Strategy 11 Nov-10 Feb

Open online public consultation

s report

Synthesis report

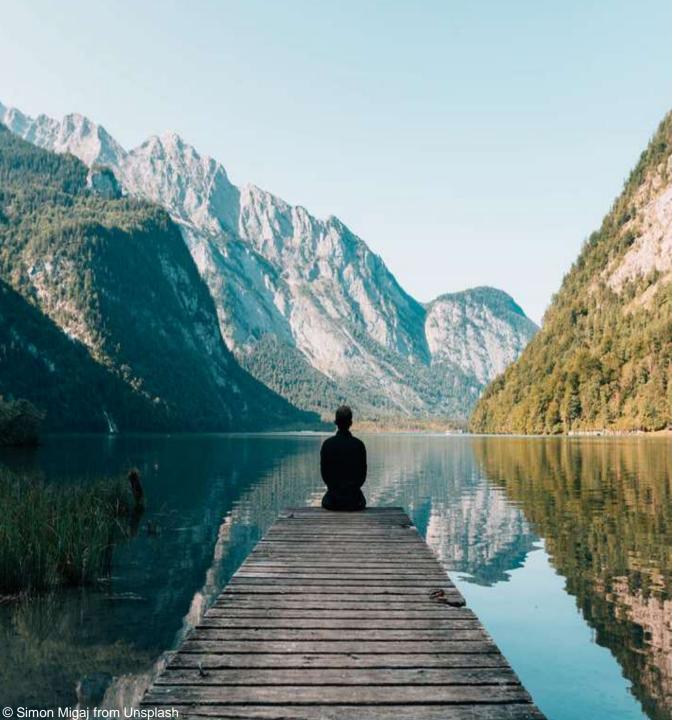

now online!

**31 May - 4 June** 

Green Week 2021

– zero pollution

# The zero pollution vision for 2050

"Air, water and soil pollution is reduced to levels no longer considered harmful to health and natural ecosystems and that respect the boundaries our planet can cope with,

thus creating a toxic-free environment."

### 2030 targets complementing SDGs

by 30% the share of people disturbed by transport noise

by 50%
plastic litter
at sea and
by 30%
microplastics

by **55% the health impacts** of **air pollution** 

# Achieve objectives in EU laws

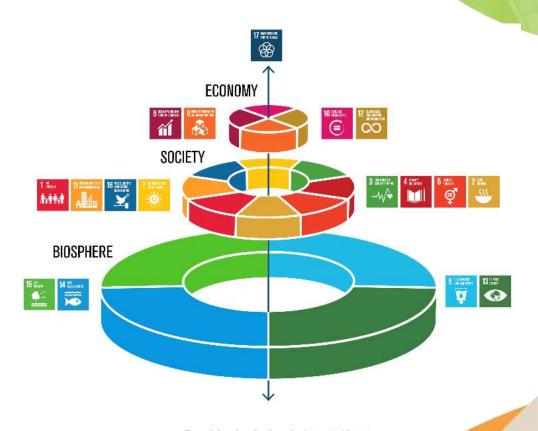

(air, water, marine and other)

+ reduce

waste generation and by 50% residual municipal waste

by 25% the EU ecosystems threatened by air pollution

by 50%
nutrient
losses,
pesticides
use &
antimicrobials
sales

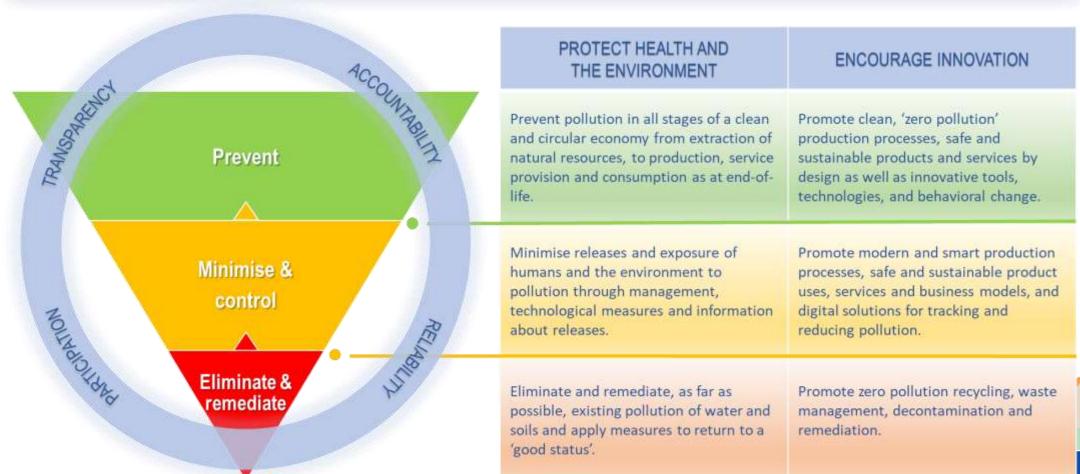

### Hierarchy of action on pollution

Union policy on the environment shall be based on the **precautionary principle** and on the principles that **preventive action** should be taken, that environmental damage should as a priority be **rectified at source** and on the **polluter pays principle**.

#### Zero Pollution policies – towards an integrated approach

#### **Action Areas**

Boosting change across **society** 

Improving **health** and well-being

Ensuring stricter implementation and enforcement

Tracking **progress**, anticipating trends and mainstreaming

Towards zero pollution from production and consumption

Living within our **planetary boundaries** 

Thematic priorities

**Enablers** 

Promoting worldwide change

| Flagships – integrated initiatives

1. Reducing health inequalities through zero pollution

2. Supporting urban zero pollution action

3. Promoting zero

pollution across regions

4. Facilitating zero pollution choices

5. Enforcing zero pollution together

for green
ons and
ollution

8. Minimising the EU's
external pollution
footprint

9. Consolidating the EU's Knowledge Centres for zero pollution

### Timetable (key actions)

• Establish EU priority watch list for **soil** 

Implementation Report of Environmental

Revision of the Mercury Regulation

**Noise Directive** 

- Second Zero Pollution Monitoring and Outlook (2024)
- Recommendations on implementation of polluter pays principle

- New emission limit values for motor vehicles (EURO7)
- Revision of the Industrial Emissions Directive and EU Pollutant Release and Transfer Register (or early 2022)
- Revision of the Environmental Crime Directive
- Launch global initiatives, e.g. on lead batteries recycling

EEA's European Environment & Health Atlas (2023)

- Review of Marine Strategy Framework Directive
- Review of Bathing Water Directive

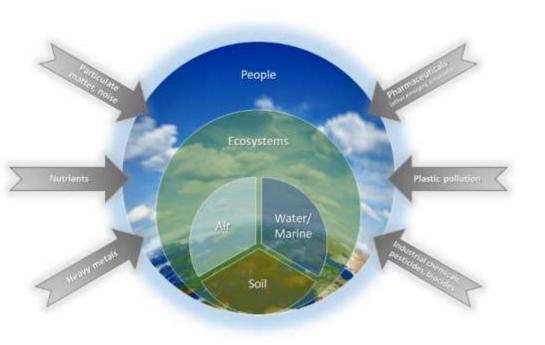

2023

2024

- Fitness Check of **Environment Liability Directive**
- Assess pathways and policy options for indoor air quality
- Dedicated nutrient (ammonia) actions contributing to the Integrated Nutrient Management Action Plan
- Zero pollution contribution to European Green Deal Dataspace

## Zero Pollution Monitoring & Outlook (SWD(2021) 141)

#### Zero Pollution Outlook (JRC lead)

- Clean Air Outlook complemented by Clean Water/Marine Outlook and Clean Soil Outlook
- Strategic foresight dimension

#### **Zero Pollution Monitoring** (EEA lead)

- Integrated monitoring of pollution building on existing air, noise, water, marine & soil
- Focus on targets, impacts, pressures and effectiveness of measures
- Spotlight on pollutants of emerging concern (e.g. light, ultrafine particles, etc.)
- Develop and incorporate more integrated assessments (e.g. Exposome, human biomonitoring, environmental footprint)
- Thematic report on emerging research or use of Copernicus
- Contribution to 8<sup>th</sup> Environment Action
   Programme and Environment
   Implementation Review

#### Digital solutions (SWD(2021) 140)

Energy networks

Precision farming

Mobility and transport

Smart buildings

Green data spaces

The power of data

#### Showcasing case studies / best practices on

- Less air pollution through digitising energy and transport sector
- Less pesticide and nutrient pollution through precision farming
- Less chemical pollution in products through better data for consumers
- Less pollution from mining and waste due to digitally enabled circular economy
- Less water pollution through 'digital water process'

#### Zero Pollution Stakeholder Platform

**European Commission** 

European Committee of the Regions

#### Who?

- Bringing together stakeholders and experts from different policy areas
  What?
- mainstream the zero pollution agenda, help create co-ownership, promote collaboration and foster integrated solutions and actions that maximise synergies

#### How?

- > share good practices on cross-cutting topics such as financing for zero pollution innovation and jobs, boosting sustainable production and consumption as well as creating thematic hubs (e.g. air, digital, soil)
- Create synergies with European Climate Pact, Circular Economy Stakeholder Platform, Green City Accord, Business@Biodiversity, Chemicals Roundtable, etc.

Business @ Biodiversity

# Hope you enjoyed Green Week 2021!
