The map shows a blue silhouette of Finland with a dashed white line representing the Growth Corridor route. The route starts at Seinäjoki in the northwest and ends at Helsinki in the south. A magnifying glass is positioned over the central part of the route, highlighting a cluster of green dots. The background features a city skyline at night with glowing blue lines connecting various points, symbolizing a network or infrastructure.

# Growth Corridor Finland

# The Growth Corridor Finland

- The Growth Corridor Finland is the key area of Finland's economical growth and competitiveness
- The area produces 50% of the nation's GNP
- Nationally speaking the greatest contribution in research, education and innovation, over 60%
- Works as a genuine platform of innovation and development for smart, mobile solutions for people, goods, services and expertise
- Over 2 million people live in the area
- The Growth Corridor Finland is also a key channel and basic infrastructure in terms of Finland's security of supply.

# The goal is to strengthen the efficiency ratio through cooperation

## REGIONAL/OPERATOR CONTRIBUTION

Own competitiveness is renewed and strengthened

Openness  
Commitment  
Trust

Situation picture  
Information flows to both directions

Shared expertise creates new expertise

## BENEFIT RECEIVED BY THE AREA/OPERATOR

More than the sum of its parts

New combinations, innovations

Synergies

Clusters built on strengths

# An interactive operating model for regional development

# EVALUATION OF IMPACT, TOOLS AND COLLABORATION MODELS

## The triangle of regional development

2 Business and Enterprises

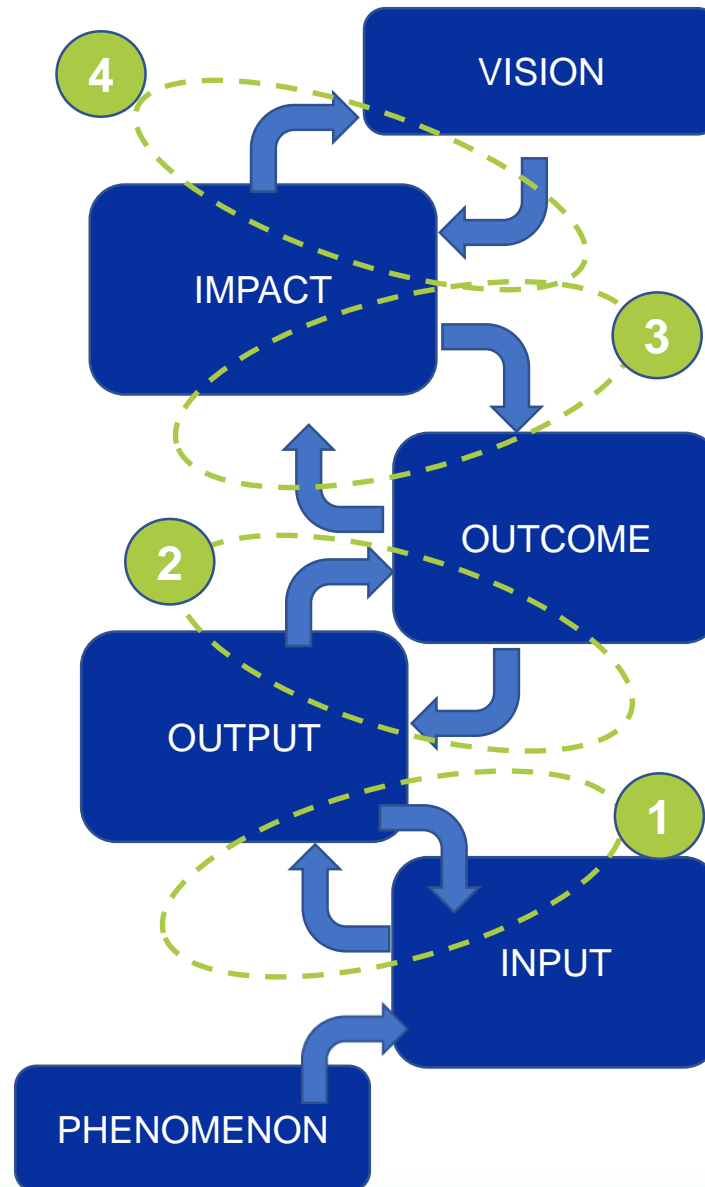

In the center  
the region's own actors

3 Educational institutions and  
developer organizations

1

Public sector

# HOW IS THE COMMON BENEFIT OF THE GROWTH CORRIDOR BUILT?

*All the activity must be long-term and comprehensive*

# THANK YOU !
