EU Mission at COP28

The Mission on Adaptation to Climate Change will deliver the *Adaptation beyond borders: An EU Mission towards climate resilience* event at COP28 next month.

The event will highlight the EU Mission as an innovative initiative that unites European regions and local actors in addressing climate change adaptation challenges. By learning from the EU's experience and innovative approach, we aspire to encourage international collaboration and action at the local level.

Wednesday 6 December

Please encourage your networks to attend the event online. [Register here.](#)

CLIMAAX Open Innovation Call Coming Soon

EU Mission project, [CLIMAAX](#), is inviting public entities overseeing Climate-Related Risk Assessments and Risk Management Plans, along with non-profit organisations dedicated to mitigating climate change impacts and enhancing community resilience, to apply for its upcoming open call.

Successful applicants will benefit from:

- Financial support of **up to EUR 300,000** to enhance regional climate and emergency risk management plans.
- Access to the comprehensive **CLIMAAX methodological framework and toolbox**, providing a structured approach to climate assessments.
- **Tailored technical guidance** to implement region-specific methodologies utilising local data and methods.

More information will be announced shortly on the [CLIMAAX website](#). We encourage you to inform your networks of the upcoming Open Call and urge them to apply when it goes live.

Latest Reports

UN Adaptation Gap Report

The UN Environment Programme has published its *Adaptation Gap Report 2023: Underfinanced, underprepared, inadequate investment and planning on climate adaptation leaves the world exposed.*

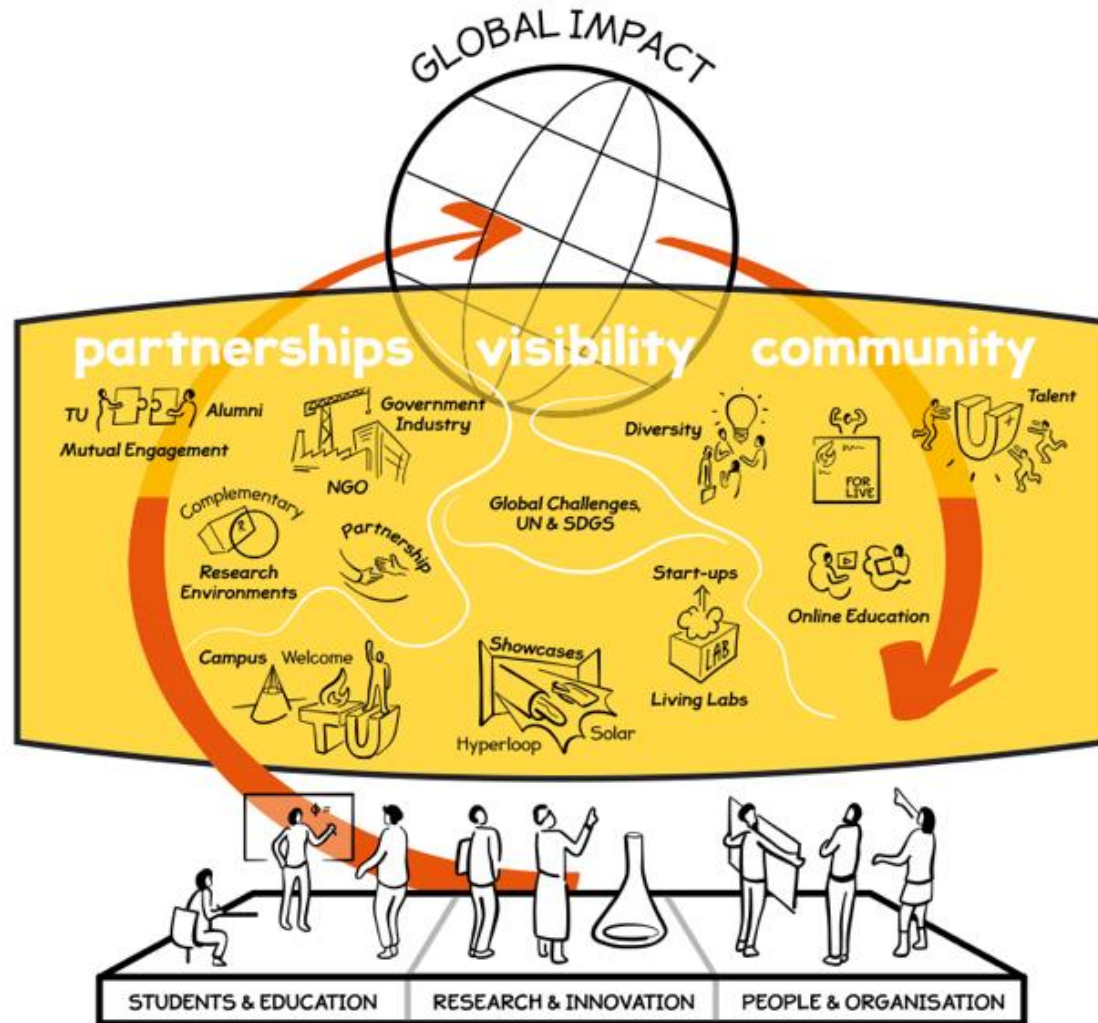

Highlights from the report include:

- Progress on climate adaptation is concerningly slowing when it should accelerate to catch up with the rising climate change impacts.
- The adaptation finance needs of developing countries are 10 to 18 times larger than international public finance flows available to support them.
- Suggests seven ways to increase financing, including domestic expenditure and international and private sector finance, to reduce this adaptation gap.
